

## PC2 Chipper

### PC2 DIMENSIONS

715(L) x 370(W) x 550(H)

- Low wastage
- Easy to clean – no tools needed
- Reliable and durable
- Cuts 25kg a minute
- 8, 12, 14, 17x14 mm chips
- Patented 'one piece' knife blade pack
- Complete operator safety – interlocked hopper and knife block
- Attractive stainless steel construction
- CE approved
- Optional stand

The PC2 Chipper has been designed to virtually eliminate waste as well as offering unrivalled reliability and ease of cleaning. The unit is compact, easy to use and can cut up to 25kg of chips a minute – more than enough to satisfy the demands of fish and chip shops, large kitchens and take aways. A wide range of knife blocks allow operators to cut chips in a variety of sizes and can even cut scallops. Knife blades are manufactured in hardened stainless steel and are replaced as a pack - no more fiddly, dangerous individual blades! The knife block and hopper are interlocked to ensure complete operator safety. The PC2 Chipper can be disassembled quickly without using tools for easy cleaning. The stylish stainless steel body and hopper wipe clean for life-long good looks.

- 12 and 25kg models
- Ideal for high volume peeling
- Outstanding reliability
- Safe, simple, no-fuss operation
- Easy to install, clean and maintain
- High pedestal 'H' models available
- Overload protected control box

Wherever vegetables need to be peeled in significant volumes, you'll find IMC's S Range Peelers. Designed to meet the day-to-day demands of the largest and busiest outlets, these high capacity, low maintenance workhorses are also an established favourite in the fish and chip trade.
