Project Name

POTATO CHIPPER RC14

The potato chipper is designed to satisfy the requirements of restaurants, collective kitchens and food industries who need to cut a large quantity of chips in a short time.

FEATURES

- Body and drum are corrosion resistant.
- The hopper and cutter block are made of stainless steel.
- Drum and block are easy to remove.
- The hopper has a safety plate which allows potatoes to pass but not the hand of an operator.
- The machine will stop immediately if the hopper is opened during operation or if the cutter block is not properly fitted.
- The automatic feed is ideal for use in large catering kitchens and specialised chip production industries..
- The approximate output for 12 mm chips is approximately 25 Kg/min.
