MINI BARS

PIONEERING THE HOTEL INDUSTRY. AGAIN.

GIVE YOUR GUESTS AN UNFORGETTABLE STAY

You will find more Dometic minibars and safes than any other make in first-class hotels across the world. Why? Know-how accumulated over 50 years, a track record of innovation as well as leading design solutions are the three main reasons.

The top of the line new HiPro Evolution and Alpha range minibars are developed with your business experience in mind. A sustainable minibar is a smart minibar. The new HiPro Evolution range is just that. Boasting precise temperature control, world-class efficiency and the best minibar cooling capacity, the premium Dometic HiPro range ensures chromate-free absorption technology checks in for a clean, sustainable future in your hotel.

Our modern and energy-efficient range of noiseless drawer minibars (Dometic DM 20 drawer minibar).

New Dometic HiPro minibars The world's best minibars

The state-of-the-art design of Dometic HiPro will help you create a premium in-room feeling. With sleek design, elegant illumination and crystal clear doors, invite your guests to treat themselves to something special.

Sustainability checking in

Sustainability means doing more with less. It's a philosophy we put into action with outstanding energy efficiency and the first chromate free minibar range on the market. A sustainable minibar is a smart minibar. The all new HiPro range delivers more powerful cooling with up to 40% less energy consumption, making a visible difference OPEX for hotel owners.

[Read more on this on p. 12](#)

Dometic drawer minibars Unique design, outstanding construction

Our drawer minibars are a class of their own in terms of design, size and functionality. Noiseless cooling, convenient slide-out access.

[Read more on this on p. 20](#)

SUSTAINABLE MINIBARS FOR A CLEAN FUTURE

Chromate has been the established industry standard corrosion inhibitor used in the production of absorption minibars for decades. Current EU legislation, however, stipulates the phase-out of this substance latest during 2021 for import to Europe and from January 2020 for European production.

Does that mean an end to the noiseless and wear-resistant absorption cooling technology? No, it doesn't. After more than two decades of intensive research and development, we are now in the unique position to offer a sustainable alternative. The new inhibitor has been thoroughly in situ tested for over ten years and is now ready to substitute chromate in our minibar factory in Jaszbereny, Hungary. The challenge was to find an environmentally sound substance that would have the same anticorrosive effect as the well proven chromate.

- Chromate-free inhibitor means environmental and health protection for production worker, customer and user.
- All our cooling technologies (absorption, silent thermoelectric and compressor) meet the most ambitious Energy Efficiency Index.
- Dometic products are fulfilling the new ErP legislation applicable from March 2021 (EU 2019/2016)
- Resource efficiency during the entire life cycle.

DOMETIC MINIBARS

ALWAYS AT YOUR SERVICE

Premium can't be measured. It's all about the first impression, elegant design, and the silence that your guests appreciate. What can be measured is efficiency. With improved cooling performance and up to 40% lower energy consumption, it's clear to see why the HiPro

range is considered the world's best minibar. After more than 50 years in the hotel business and 6 million installed units, we're proud to say that we're pioneering the hotel industry. Again.

1. COST REDUCTION

The new HiPro offers best-in-class energy efficiency - no matter which cooling technology is used.

2. SUSTAINABILITY

We work hard to achieve even lower footprints within manufacturing as well as energy consumption.

PIONEERING THE HOTEL INDUSTRY. AGAIN.

We believe in sustainable innovation for a better guest experience.

3. GUEST EXPERIENCE

HiPro will not only deliver premium cooling performance - it is also an attractive and sales promoting feature in the guest room.

4. STRONG PARTNERSHIP

After more than 50 years in the hotel business we have a strong promise to ensure care free maintenance.

AT HOME IN THOUSANDS OF HOTELS

Over the last 40 years, Dometic has supplied minibars to hotels and cruise lines around the world. Today, we are the market leader. In addition to cooling solutions, we provide a range of tough and reliable safes.

Dometic is the world's leading supplier of minibars to the hotel industry. And it is not only the most luxurious hotels in the world that come knocking on our door but also hotels of every star rating. For the past 50 years, there have been more than 6 million minibars manufactured by Dometic installed in hotel rooms around the world.

THE WORLD'S BEST MINIBARS

NEW HIPRO MINIBARS

WE DEVELOPED HIPRO WITH HOTEL GUESTS IN MIND

A well-stocked minibar is an expected and appreciated hotel room feature for well-traveled hotel guests. Let's have a deeper look at some outstanding features we offer to the market with the all-new HiPro minibar generation:

- Celebrating menu illumination (Evolution)
- Adjustable shelf positions to fit different kinds of bottles with different heights
- Shelves removal at 90° door opening angle; maximum door opening angle 120°
- Door racks fits 1.5L bottles
- Aluminum handle (Evolution)
- Unique, modern design with full glass door option
- Door racks for all doors, also in the transparent door

DEVELOPED WITH YOUR BUSINESS EXPERIENCE IN MIND

HIPRO ALPHA

Many business travellers are constantly on the move living a suitcase life. Most days represent hard work with long hours - arriving late to the room preparing for the next day's meeting while burning the midnight oil. That's why the minibar is a much-appreciated feature offering cold beverages and energizing snacks. For the leisure tourist, the hotel minibar is an opportunity to enjoy a cold beverage at the late arrival check-in, after a long city excursion and while getting ready for a fun night out - or perhaps waking up with a need to quench the thirst.
